6. Furniture Store - talk to gabs about setting up a QR code with the spreadsheet to figure out what is on high or not. Also during camp things need to be got rid of. Stop reselling good stuff and instead create space by chucking away the old stuff

Talk to management about new wireless headsets for SMs. We can pay around £1,000 to have them repaired but this should be paid for by all student funding bodies really - can we get a pot together?

Asking larger shows to have production managers. Really helps with welfare for the whole team. Ask Eva if panto could have one. Encourage hiring of production

manager to big shows that we fund next term - information needs to be put together on what the difference is between this and a producer.

Intimacy content - should be passed on to techies pls especially SMs! Publicise intimacy guidelines and update them to encourage this. Same with all content warnings really. Putting content warnings somewhere in the box office or bar updated for each show so that those buying tickets on the door can see what is coming.
